Address: RECTORY COTTAGE, PANTON ROAD, HATTON, MARKET RASEN LN8 5QG

## Comment Details

Commenter Type: Consultation

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: With reference to the amendments submitted by the applicant to this application we feel that they do not alter our objections to this application being granted. The additional land classification does not alter the fact that this is productive agricultural land which will be lost. It has produced abundant and much needed crops and will continue to do so.

The various surveys of diverse fauna do not cover the multitude of common indigenous fauna of this area.

As regards the detail on construction access, this is unbelievably unacceptable. The intention is to route incoming construction traffic through the village, past houses with children in residence, something that was completely banned during the construction of the gas compressor station nearby. The point of access to the proposed site is within metres of a dangerous corner. Surely the highways department would not accept this. This application should be refused.

Submitted on behalf of Hatton Parish Meeting
