No	Page / Policy	Paragraph	Change	Reason
MM1	5	Key diagram	Add the words, <u>The illustration of 'Coastal East Lindsey – area at risk from flooding' is illustrative only. The definitive boundaries are shown on the policies map.</u> At the bottom of the diagram to emphasise that the flood risk areas are illustrative and shown correctly on the policies map.	As discussed at the examination hearings and for clarity in conformity with the NPPF.
	6	After paragraph 6	Add an additional sentence which would read " <u>The Council will seek to monitor the impact of its policies on these sites through its monitoring framework.</u> "	To provide clarity that monitoring will take place.
	6	New insert	Insert a paragraph to read as follows;  <u>The policies in this plan 2016 – 2031 supersede those listed at Annex 5 which comprises the East Lindsey Local Plan 1995 Saved Policies identified by the Secretary of States Direction September 2007</u>	To comply with Regulation 8(5) to set out the list of superseded policies
	6	Last paragraph	Add an additional sentence which would read " <u>The Core Strategy and Settlement Proposals Development Plan Document supersedes the 1995 (amended 1999) East Lindsey Local Plan in its entirety.</u> "	This sets out as required by Regulation 8(5) which development plans are superseded.

## SETTLEMENT PATTERN (POLICY SP1)

No	Page	Paragraph	Change	Reason
MM2	19 – SP1	Clause 1	Delete the sentence - <del>The distribution of future housing growth is set out in Strategic Policies SP3, Housing Growth and the Location of Inland Housing Growth and Sp7 Coastal East Lindsey</del>	To provide clarity in conformity with the NPPF and as discussed at the Examination, this has been removed because it is a partial list of policies.

## SUSTAINABLE DEVELOPMENT (SP2)

No	Page	Paragraph	Change	Reason
MM3	20 – SP2	2	Amend the paragraph so it reads as set out in the NPPF by adding the word “ <a href="#">and</a> ” after indicate otherwise and “ <a href="#">unless</a> ” after grant permission	This amendment now reflects the wording in the NPPF.

## HOUSING GROWTH AND THE LOCATION OF INLAND GROWTH – (SP3)

No	Page	Paragraph	Change	Reason
MM4	21 – SP3	2	Delete the second sentence of the paragraph <del>38% of East Lindsey, including the important towns of Mablethorpe and Skegness which are in an area of high coastal flood risk. Strategic housing development here would be out of conformity with national planning policy, because housing is classed as vulnerable development and should be avoided by directing it away from the areas of highest risk.</del> and add in three new sentences setting out the where the area of the Coastal Flood Hazard Zone is and what it covers. The two sentences will then read “ <a href="#">38% of East Lindsey</a> ”	To clarify where the Coastal Zone is in respect of the policies and map. This was raised as an

			<a href="#">is in an area of high coastal flood risk. This area is covered by the Environment Agency`s Coastal Flood Hazard Map and is called the Coastal Zone. The map is shown on the policy map on page 6 and on page 90 of the plan and the zone covers the red (danger for all), orange (danger for most), yellow (danger for some) and green (low hazard – caution).</a>	issue during the Examination Hearing for Matter 5
<b>22 – SP3</b>	<b>Additional paragraph after paragraph 5</b>		<a href="#">5i. East Lindsey is a relatively self-contained housing market area with 77% of those working in the District living in the District. There are some wider linkages to Boston in the south and North East Lincolnshire in the north but migration to surrounding authority areas has only a relatively small net impact upon population change. For the purposes of this plan, East Lindsey has been treated as a single housing market area.</a>	Discussed at the Examination Hearing and providing clarity on the HMA for the District in conformity with the NPPF.
<b>22– SP3</b>	<b>7</b>		Amend the figures in the first sentence from <del>7215</del> to read after Edge Analytics in 2016, <a href="#">the objectively assessed need for the period 2011 to 2031 is 9620 homes, this equates to 481 homes a year.</a> Add an additional sentence onto the end of the paragraph which reads <a href="#">“The starting point of the Local Plan for the purposes of establishing the need for housing is 2011 with the Plan running to 2031.”</a>	Discussed at the Examination Hearing and providing clarity on the housing requirement and start period of the Plan in conformity with the NPPF
<b>22– SP3</b>	<b>8</b>		Rewrite the paragraph so it reads as follows;  In addition to the housing <del>target</del> <a href="#">requirement between 2017 and 2031 based on an annual average of 481 homes a year,</a> the Council has to set out how it is going to deal with any past <del>undersupply shortfall</del> of housing. As at the 1 <sup>st</sup> <del>February 2016 March 2017,</del> <del>that past undersupply amounted to 553 homes, which included a 5% buffer. The Council will look to deliver this undersupply within the first five years of the plan period.</del> <a href="#">the District from the period 2011 to 1<sup>st</sup> March 2017 should have</a>	Discussed at the Examination Hearing and providing clarity on the shortfall in conformity with the NPPF

		<p>delivered 2886 homes against the housing requirement of 481 homes a year, as set out below;</p> <table border="1"> <thead> <tr> <th><u>Year</u></th> <th><u>Annual Requirement of Housing</u></th> <th><u>Completions of Housing</u></th> </tr> </thead> <tbody> <tr> <td><u>2011</u></td> <td><u>481</u></td> <td><u>246</u></td> </tr> <tr> <td><u>2012</u></td> <td><u>481</u></td> <td><u>240</u></td> </tr> <tr> <td><u>2013</u></td> <td><u>481</u></td> <td><u>276</u></td> </tr> <tr> <td><u>2014</u></td> <td><u>481</u></td> <td><u>278</u></td> </tr> <tr> <td><u>2015</u></td> <td><u>481</u></td> <td><u>405</u></td> </tr> <tr> <td><u>2016/17</u></td> <td><u>481</u></td> <td><u>356</u></td> </tr> <tr> <td><u>TOTAL</u></td> <td><u>2886</u></td> <td><u>1801</u></td> </tr> <tr> <td><b><u>Total Housing Shortfall</u></b></td> <td colspan="2"><b><u>2886 -1801 = 1085</u></b></td> </tr> </tbody> </table> <p>The District had only delivered 1801 homes leaving a past undersupply which amounts to <del>553</del> 1085 homes, which included a 5% buffer. The Council will look to deliver this undersupply within the first five years of the plan period. Therefore the housing requirement from 2017 to 2031 = 6734 (i.e. 481 x 14 years); plus the shortfall from above of 1085, this equates to a total housing requirement of <b>7819</b> for the period 2017 to 2031. ## MAIN MODIFICATIONS CONTINUED

No	Page	Paragraph	Change	Reason
<b>MM4 cont`d</b>	<b>26 – SP3</b>	<b>21 Table B</b>	Amend the wording of the paragraph so that it reads as follows; <u>Table B below shows the total capacity of housing in each settlement across the inland towns and large villages from allocations as set out in the Settlement Proposals Document. The allocation figures below for each settlement are not intended as maximum figures. However the figure for Alford is the minimum amount of housing that should allocated in the Alford Neighbourhood Plan. For the purposes of neighbourhood planning in Alford, this is a strategic policy.</u>	Discussed at the Examination Hearing and providing clarity in conformity with the NPPF
	<b>27 – SP3</b>	<b>22</b>	<del>Remove paragraph which reads; It is important that housing growth occurs in line with infrastructure, the Council therefore wishes to see sites over 30 demonstrate how they are going to phase development if required in order for necessary infrastructure improvements to occur and for early engagement with infrastructure providers to take place on sites over 10, this is particularly focused on water infrastructure as recommended in the East Lindsey Stage 2 Water Cycle Study 2016.</del>	Discussed at the Examination Hearing and providing clarity in conformity with the NPPF
	<b>28 – SP3</b>	<b>30</b>	Amend the paragraph as follows to set out how windfall will be monitored.  Because of the long historical trend of this type of delivery, the type of sites that are delivered in this way and the local nature of the delivery, <u>the Council will monitor future delivery and consider whether it would be appropriate to have a windfall allowance in the 5 year supply during the review of the plan.</u> <del>the Council believe it has sufficient evidence to make an allowance for windfall sites in its housing supply. This allowance it is believed should be 15%. Having an up to date Local Plan with site allocations, phasing sites, monitoring delivery and having a clear delivery pathway for housing should see the number of windfall developments reduce.</del>	Discussed at the Examination Hearing and providing clarity in conformity with the NPPF

<p><b>28 – SP3</b></p>	<p><b>31</b></p>	<p>Amend the paragraph so that it reads as follows;</p> <p>The usual approach with regard to housing allocations is to provide a buffer or fall back in the allocations to ensure that if sites do not come forward then others can take up the housing need easily. Given that the Local Plan is going to be reviewed in 5 years, and at that time additional sites can be allocated if the need and evidence arises, <u>Policy SP3 therefore sets out a minimum inland housing requirement of 6562 but the Settlement Proposals Document has an additional, the allocated margin above the housing requirement</u> <del>buffer provision in the plan will be which is</del> approximately 7.3 4.68% or <del>568 366</del> homes. <del>The buffer is the difference between the target and the amount of housing actually allocated in the Settlement Proposals Document. The margin is the difference between the housing requirement and the supply of housing actually allocated the Settlement Proposals Document and provided through commitments (non-allocated sites with planning permission as of March 2017)</del></p>	<p>Discussed at the Examination Hearing and providing clarity in conformity with the NPPF</p>
<p><b>28 – SP3</b></p>	<p><b>32</b></p>	<p>Delete paragraph 32 which reads;</p> <p><del>It is important that windfall sites coming forward during the plan period are sited in sustainable locations that are within or adjoining the inland towns and large villages. They should not leave development out of character or isolated from the main body of the settlement. These sites should therefore only be located wholly within or adjoining the main body of the settlement. A windfall site is any site that comes forward that is not allocated in the Settlement Proposals Document.</del></p> <p>Replace the paragraph with the following;</p> <p><u>There are policies in the plan which support windfall development in specific circumstances (SP4, SP5, SP8, SP9, SP12 and SP18). While these allow for additional housing growth beyond that provided through allocations, it is important that windfall developments do not harm the character and amenity of settlements and that they do not compromise the achievement of a sustainable pattern of development.</u></p> <p><u>The towns within East Lindsey have a good level of services and facilities</u></p>	<p>Discussed at the examination hearing to provide clarity around windfall sites coming forward in conformity with the NPPF.</p>

		<p><a href="#">and additional growth through windfall development can be supported, providing sites conform to the policies in the Plan and national policy.</a></p> <p><a href="#">32i. The large villages generally have fewer services and facilities than the towns and it is, therefore, particularly important that windfall development is carefully managed so that, whilst some additional growth is supported over and above the site allocations, it does not harm the character and amenity of these settlements or compromise the achievement of sustainable patterns of development.</a></p>	
<b>28 – SP3</b>	<b>After Paragraph 32</b>	<p>Insert a new paragraph which reads as follows;  <a href="#">32(ii) In the AONB windfall development must have regard to the policies within this Plan. Great weight should be placed on conserving the landscape and the scenic beauty of the Area of Outstanding Natural Beauty, which is the only one in Lincolnshire.</a></p> <p>This is to ensure that regard is had to the NPPF in relation to windfall development in the AONB.</p>	To provide clarity on the level of protection given with regard to this area, in conformity with the NPPF and as discussed at the examination hearing.
<b>28 – SP3</b>	<b>33</b>	<p>Delete the word <del>target</del> and replace it with <a href="#">requirement</a> in the paragraph. Insert as the last sentence to the paragraph; <a href="#">Information on the 5 year supply and the trajectory of housing over the plan period can be found on the Council`s website as an appendix to this Plan, this information is updated on a yearly basis along with the Councils Monitoring Report.</a></p>	Discussed at the Examination Hearing and providing clarity in conformity with the NPPF
<b>28 &amp; 29 – SP3</b>	<b>35</b>	<p>Delete the 4<sup>th</sup> bullet point which reads; <del>The imposition of planning conditions on outline approvals to ensure that reserved matter applications are submitted in a reasonable period of time if it appears that sites are not coming forward and through repeated resubmissions (12 to 18 months)</del></p>	Discussed at the Examination Hearing and providing clarity in conformity with the NPPF
<b>29 – SP3</b>	<b>36</b>	<p>Delete the paragraph and insert a new paragraph which reads "<a href="#">There are a number of factors in the Local Plan which mean there is uncertainty around delivery and impact of the policies, especially as this is the first time the Council has constrained housing growth on the coast. ### MATTER 19 – RENEWABLE AND LOW CARBON ENERGY (POLICY SP27)

No				
MM26	<b>114 – SP27</b>	<b>3</b>	<p>Delete the last sentence of the paragraph <del>“It is considered that any significant commercial energy infrastructure is likely to create an unacceptable impact within the Wolds.”</del></p>	Raised during the publication consultation by the Viking Link as unsound, which the Council agrees with, the deletion of this sentence does not change the overall

				context of the paragraph. Discussed at the Examination hearing, in conformity with the NPPF.
<b>116 - SP27</b>	<b>9</b>	Delete the last sentence <del>"Outside of these areas, the Council will apply the policy in consideration of the more detailed development management elements of wind energy development proposals."</del> Add after the third sentence of paragraph 9 <u>In accordance with the Ministerial Statement, the Council has assessed the District in relation to its suitability for wind turbine development. Having regard to various constraints, most of the district is potentially suitable with the exception of areas D1 (Wainfleet Wash Saltmarsh) and K1 (Donna Nook to Gibraltar Point Naturalistic Coast) in the Council's Landscape Character Assessment (see map below). These areas are identified as having a high sensitivity to change and also contain internationally protected sites for biodiversity. Therefore the whole District is identified as suitable for wind energy development at a strategic level, with the exception of areas D1 and K1. As individual sites are brought forward, the requirement of the second clause of the Ministerial Statement in respect of the planning impacts of individual sites will then be assessed against the criteria in the policy. The area suitable for wind energy is shown on the Policies Map below.</u>		To comply with the Ministerial Statement on Wind Energy in conformity with the NPPF and as discussed at the examination.
<b>117 - SP27</b>	<b>Para 14</b>	Delete the reference in the second sentence of the paragraph to the code for sustainable homes this is not applicable now.  Sustainable development is about considerably more than reducing carbon emissions and <del>the Code for Sustainable Homes and</del> other methods for assessing development are about a whole range of issues, including but not wholly related to the production and use of energy.		To ensure the policy is clear and to be in conformity with the NPPF.
<b>117 - SP27</b>	<b>Clause 1</b>	Add in a new clause underneath Clause 1 called Clause 1i which would read as follows;  <u>1i. Wind energy developments will be supported in the areas shown on the policies map, provided where their individual or cumulative impact is,</u>		To ensure the policy is clear and to be in conformity with the NPPF and to marry up with the text I the

The Local Plan runs from 2017 – 2031, but there are some policies in the Plan which mean that the Council is taking a different policy direction from the past, most notably the policies around flood risk and housing restrictions along the coast. Alongside the coastal policies, housing is an important factor which must be considered in relation to both inland East Lindsey and the coast. Part of any monitoring and further work to be undertaken is a review of the District`s objectively assessed need for housing and whether the District is still within a self-contained housing market. Linked into this will be the need to liaise with statutory partners around matters of infrastructure and any arising housing need from neighbouring authorities.</u></p> <p><u>3. The Council also need to monitor the impact and effectiveness of its policies on windfall development coming forward in the towns and large villages. With regard to the medium and small villages, the impact of infill development will need to be assessed, particularly with regard to whether these settlements are becoming more or less sustainable and whether the policies for windfall are undermining the overall plan for housing.</u></p> <p><u>4.
